"BETWEEN THE"

As a local talent stage performance, the three-act comedy farce stage play in the Columbus hall, on Tuesday night was really commendable. The cast of characters included the following: Dick Comfort, married yet single—K. Blain; Edith Comfort, Dick's wife—Mrs. S. White; Harris, Dick's man servant—S. White; Alexander Meander, Dick's uncle, blamed but blameless—S. G. Bannan; George Merrigale, an unfriendly friend—G. Hills; Mrs. Clementina Meander, Dick's aunt, blameless but blamed—Mrs. S. G. Bannan; and Sally, Mrs. Meander's maid—Mrs. F. H. McKay. The play from start to finish was extremely laugh-provoking—in fact, some little incidents occurring at intervals unexpectedly added considerably to the fun.

The play was greeted by a good audience, and as a result a neat sum was realized towards St. Luke's vestry fund.

Upton's string orchestra, sixteen pieces, was present and rendered pleasing selections before the curtain and during intermissions.

CUT-THROAT METHODS

Some patronize a typewritten fly-sheet rather than support a real newspaper which consistently fights for Coleman first, last and all the time.

The mayor of Blairmore, in order to undermine The Enterprise, orders the annual statement printed by a typewriter and duplicated instead of by journeymen printers working on a union wage scale. Union principles usually condemn discriminatory "cut-throat" methods in industry.

—The Coleman Journal.

[Thanks, brother. That's no bull!]
Mrs. Aaron Goodman entertained a few friends on Tuesday evening, following the Women's Musical club recital, in courtesy to Miss Madeleine Chardon, of Blairmore, and Miss Jean Cruickshank, of Hillcrest—Lethbridge Herald.

RESULT OF MONDAY'S ELECTIONS NO SURPRISE

The result of the municipal and school elections here on Monday afforded a splendid example of what can be accomplished where there is practically 100 per cent organization. The vote was by far the heaviest ever polled in the town and district and the election thoroughly was carried out in a most orderly and efficient manner.

Among the successful candidates, the public in general feel proud of the splendid support given Joe Krkosky, junior, as workers' candidate for trustee. Joe landed no less than 520 votes, the biggest vote ever accorded any candidate in the history of the town. Our old reliable, Evan Morgan, was again re-elected to the council, as usual heading the poll with a vote of 430.

The final result of the count was as follows:

For council—W. L. Evans 299, F. C. Montalbetti 303, Evan Morgan 430, David Oliver 298, Jack Packer 418 and A. Pagnucco 394. Morgan, Packer and Pagnucco elected.

For trustees—J. Krkosky 520, S. McDowell 430, R. Oakes 428, O. M. Olson 490, S. Patterson 463, C. Sartoris 428. Krkosky, Olson and Patterson elected.

Summary shows 714 votes cast for council, 8 spoiled, one rejected and four cancelled. Of 921 votes cast for trustees, 17 were spoiled, four rejected and one cancelled.

The council personnel for the year 1934 will be Mayor W. Knight, Councillors E. Morgan, J. Packer, A. Pagnucco, J. Krkosky, senior, Albert Olson and Joseph Aschacher. The school board: J. Krkosky, O. M. Olson, S. G. Bannan, S. Patterson and A. Beattie.

Coleman also enjoyed a keenly contested election, with the Citizens' League presenting a front just about as solid as that of the United League here. Mayor Pattinson was re-elected, with a majority of 133 over Andy Dow. Antrobus and Serk were re-elected to the council, with the addition of W. Haysom, G. Hope and James Naylor were elected to fill two vacancies on the school board.

The highest vote in Coleman was awarded James Naylor 565; and the lowest to N. McMullen, 50. There were 140 spoiled ballots.

Returns were as follows: Pattinson 267, Dow 130, Antrobus 257, Danyluk 72, Haysom 283, Lonsbury 57, Makin 105, Serk 229, Snowden 90, Barringham 316, Chamberlain 384, Ford 201, Hope 450, McMullen 50, Naylor 565 and Sudworth 152.

The complete lineup in Blairmore, with exception of S. G. Bannan on the school board, are representatives of the Workers.

DEATH OF ANDREW MCNEILL

The death occurred on Monday night, at the home of his sister, Mrs. John Baird, of Andrew C. McNeill, at the age of sixty-four, following a prolonged illness.

Mr. McNeill came to Western Canada some years ago from Westville, Nova Scotia, and has resided most of the time up to some two or three months ago at Coleman, where he was following the occupation of a miner. About three months ago, owing to failing health, he was obliged to quit work.

Funeral took place yesterday afternoon, following a service conducted at the Crow's Nest Undertaking Co's chapel by the Rev. A. E. Larke. The remains were laid to rest in the Protestant cemetery.

At the graveside following last rites being administered by Mr. Larke, very appropriate words of sympathy and respect were delivered by Harvey Murphy, Unity League organizer.

PASS ARTIST ENTERTAINERS AT LETHBRIDGE

Miss Madeleine Chardon returned this morning from Lethbridge, where she attended the "Evening with Schubert," presented at the Marquis hotel under auspices of the Women's Musical Club, with Miss Jean Cruickshank, of Hillcrest, as visiting guest artist. Speaking of the entertainment, the Lethbridge Herald has the following to say:

Opening the Schubert programme, Mr. Francis Stevenson, organist and choirmaster of Wesley church, gave a delightful address on the poetic Austrian composer. He touched on his child life and early showing of unusual genius along musical lines, his struggles as a school master, outstanding friendships with such men as Mayrhofer, the poet, and Wolf, the baritone singer and eventually with Beethoven. Schubert had a constant struggle against poverty, but was always rich in friends and was called a leader in his party. Mr. Stevenson spoke of the musician having as many as three compositions a day to his credit and mentioned some of his outstanding works. Death claimed the composer at the early age of 32.

An outstanding treat of the evening was the delightful piano playing of Miss Jean Cruickshank. "Auer" by Schubert-Liszt was admirably played. She interpreted the imaginative feeling of the composer with much beauty. Her musicianship shows not only a good technical background, but is expressive of individuality and feeling. As an encore number she played Rachmaninoff's Prelude in G sharp.

A brief but whimsical number which was much enjoyed was the song "The Hildon Brander" by Miss Hildon Brander.

She was like a wood-nymph introducing a refreshing breath of spring throughout the dance. Her accompaniment was Mrs. A. L. Brander.

A group of three violin pieces were played by Mr. Allan Murray including "Serenade," Schubert-Elman; "Ave Maria," Schubert-Wilhelm; and "Wegenglied," Schubert-Elman. This young artist is undoubtedly gifted, but one felt in the first two numbers a lack of depth of feeling and not quite enough color in the full tones, but "Wegenglied" was a delightful gem in which Mr. Murray displayed fine technique and genuine song feeling.

He was accompanied by Mr. Ralph Johnson, whose playing was so outstanding especially in the "Ave Maria" number, that one found oneself listening to the piano accompaniment, rather than to the violin solo.

Mrs. F. E. Fisher and Mrs. Alvina Wright sang two duet numbers by Schubert, "Bacchante" and "Hark, Hark, the Lark" accompanied by Miss A. L. Brander. Unfortunately the voices of these vocalists did not blend sufficiently to give as pleasurable a performance as they might have given as individual performers.

Symphony in B. Minor, a piano duet by Schubert, with Miss Aileen Jones and Mrs. Aaron Goodman as artists, concluded the programme. There were many enjoyable moments during this presentation, both players contributing to an atmosphere of happy intensity, but the musical relationship was not always balanced.

The reviews given to the performers on the Women's Musical club programme are based on a professional, rather than an amateur standard.—B. B.

"Fresh from the Gardens"

Handicrafts In The West

Shortly after the conclusion of the World's Grain Show held at Regina last summer the question arose as to the use to which the big quarter of a million dollar Grain Show building could be devoted, not only in connection with the annual provincial exhibition but throughout the year. Many suggestions were advanced, but few had any relation to the subject of the use to be made of the building in connection with the annual Provincial Exhibition, possibly because of the size of the structure, the great extent of floor space, and the difficulty in these recent years of finding necessary funds to promote any large development.

The writer now proposes to advance an idea for the consideration not only of the Regina Provincial Exhibition Board, but of people throughout the three prairie provinces. This idea is advanced because it is somewhat in keeping with the international character of the project for which the building was originally constructed; because it presents an opportunity to encourage and develop one aspect of our western life we are in danger of neglecting; and because it appears to be a feasible undertaking at the present time, and, in fact, may even provide a small source of income to many people who are in dire need of every cent they can earn.

The suggestion we advance is that this building erected to house grain and other exhibits of the nations of the world, or at least a portion of it should continue to be utilized each year for the display of the handicrafts of the people of the many nations who constitute such a large proportion of the population of Western Canadian provinces. In other words, that the various racial and national groups throughout the West be invited, encouraged, even urged, to revive their home handicrafts on a larger scale than before and to exhibit the same, the understanding being that the exhibitors have the right to sell the goods they have placed on exhibit if they so desire.

What, we ask, could provide a more colorful, interesting and instructive exhibition than a continuous series of booths each devoted to the handicrafts of different national groups, presided over by men and women of each particular group, dressed in their national costumes?

Some years ago the C.P.T. sponsored the holding of exhibitions of handicrafts throughout Canada, and these were attended by thousands of interested visitors. In conjunction with such exhibitions, festivals and concerts featuring the music of different countries were held. Recently, at Regina, a highly successful folk festival and dance was held in which hundreds of citizens of non-English speaking nationalities participated, each providing their own orchestra or band.

The people of every nationality have some worthwhile contribution they can make to the upbuilding of this Canadian nation. These people have chosen Canada, yes, Western Canada, as their home; they are bringing their children up to be Canadians. They have a wealth of tradition arising out of the past histories of their native lands, of music, poetry, literature, and a bewildering array of handicrafts to contribute that will add richness to this young nation now in the making. They should be encouraged to make this contribution. It should be impressed upon them that they are welcome in Canada; that so far from asking or expecting them to forget their old homelands and the customs and traditions and handicrafts of their native countries, we want them to add these as a contribution to the greater beauty and strength of Canada.

Why not, therefore, utilize at least a portion of the fine World's Grain Show building to develop a little annual international exhibition put on by the people of many lands now resident in our midst on these Western plains? Let us have the flags of all nations waving again over booths filled with the arts and handicrafts of Germany, Poland, Norway, Sweden, Iceland, Belgium, Holland, Italy, Yugoslavia, Czechoslovakia, Roumania, Ukraine, Greece, Russia, Austria, Hungary. Let us include China and Japan, who have representatives in our midst. And the Irish, the Scotch, the Welsh should join their contributions with the English, and the French-Canadians to round out the whole.

At the World's Grain Show last summer there were a few of these handicraft exhibits, and they were most interesting although rather overshadowed by the magnitude of the show in other respects. But with one wing of the big building arranged in attractively decorated national booths, with exhibits of the arts and handicrafts of each nation on display, with national flags and national costumes, and all of which could be provided by and through people now resident in the prairie provinces, a use can be made of the Grain Show building which will return a dividend to Canada, not in cash perhaps, but in nation building. At the same time activity in national arts and handicrafts will be encouraged, these arts and skill in workmanship will not be lost, and, in fact, a valuable and growing domestic market developed for hand-made products from many a humble and needy home.

Pitchblende Shipped Out

Nine hundred pounds of pitchblende concentrates were brought down from Great Bear Lake, by Pilot Matt Berry, Mackenzie Air Service, and shipped east by rail to La Rive brothers radium refinery at Fort Hope.

Some species of ants have highly developed social organization, with queen, king, and worker forms, and soldiers that have mouthparts greatly enlarged for fighting.

The Empire lost 1,104,890 men during the Great War. And yet, incredible as it seems, there are people in the world to-day who want another war.

Weary Days—Sleepless Nights Wrack the Nervous System

Men and women too tight after night on sleepless beds. Their eyes do not close in the refreshing repose that comes to those whose nerves are right. They are irritable and nervous, and when they do, everything looks dark and gloomy.

Milburn's H. & N. Pills is the remedy that is required to restore them to the blessing of good health, they bring back the sound refreshing sleep, tone up the nerves, and impart that sense of buoyancy to the spirit that is the result of renewed mental and physical vigor.

Strength In The Air

Official of Air Ministry Satisfied With Britain's Efficiency

Our stunt press so frequently sets our flesh creeping by allusions to our unpreparedness to ward off air attacks that it is refreshing to hear the views of a real expert.

I had a talk to-day with one of the high officials of the Air Ministry. He scoffed at the notion that we should imitate Italy in constructing "funk holes" beneath our arterial roads. He was not even greatly concerned that civilians should be trained in the use of gas masks. When I reminded him that in the matter of aeroplane squadrons we came very low down in the list of the seven big powers, his contention was that it was not aeroplanes that counted, but the efficiency of the pilots. Aeroplanes could be turned out at the rate of hundreds a month if necessary. "Where do we stand," I asked, "in the matter of efficiency?" "Measured by this room," he said, "we are right up to the ceiling. And the Power that comes next is America. Her position would be just about two-thirds up the wall."—London Cor., Ottawa Journal.

Swedish Sea Serpent

Sea Monster Disporting In Lake For Thirty Years Or More

The sea monster disporting in the waters off British Columbia is not the only one of its species, numerous people in the province of Jentland, in northern Sweden, insist.

Accounts of the Canadian phenomenon have revived interest in the "Storjor monster," as it is usually called, which people by the hundreds have reported seeing for the past 30 years or more.

The animal is said to resemble a huge snake 30 to 35 feet long, is of a brownish grey color, has big eyes and moves swiftly in the water. Once, residents reported, it followed a steamer almost across the entire lake and on another occasion was chased by two armed men in a boat. A Stockholm paper went out on expedition in a fruitless effort to catch it.

Fewer Forest Fire Losses

Figures For B.C. Last Year Lowest In Two Decades

Forest fire losses in British Columbia during the 1933 season totalled \$406,768, the smallest in two decades. In 1925 forest fires caused the greatest damage in the history of the province, when \$2,747,000 worth of timber and other property went up in smoke.

Most of the fires of major calibre during the 1933 season occurred in southern British Columbia. Complete records released by the forestry department show 1,082 fires and lightning was responsible for approximately 25 per cent.

Russia Has Costly Project

Details of a \$51,500,000 project just started in Russia, for the study of the human body, ill and healthy, and from every angle, including eugenics and heredity, were made public by a two-man commission which has been studying American hospitals and medical centres since last November. The project, to be known as All-Union Institute of Experimental Medicine, is located in a suburb of Leningrad, called Dolsturo.

Object To Wax Models

"Effeminate" wax models for displaying uniforms in military tailor shops in Rome has aroused the ire of Fascist newspapers and officers, who demand that the "effeminate" figures be replaced by "more military and less endearing clothes horses." One officer, writing in the newspaper Tribuna, said that "shop window figures with pomaded hair, feminine garbs, eyebrows and lashes of a Gargoyle and lovely carmined finger-nails."

Wife—"John, I gave you this letter to find it in your paid coat pocket!" Husband—"I remember! I took of the coat at the time to have you sew a button on it and it isn't sewed on yet!"

Travel by rail may have its handicaps, but when the storm king reigns, trains still keep the rails, and, unlike their highway adversaries, they do not have the disagreeable habit of skidding into the ditch.

Out of a million eggs handed last year by dock workers at Brisbane, Australia, only one was broken.

Makes Bank-Note Paper

English Factory Has Been Doing Business Since 1700

The manufacture of bank-note paper is one of the oldest established businesses in Great Britain, according to J. M. Dalgarno, technical representative of a British firm of distributors of registered water-marked papers, who visited Canada on his way to Kuala Lumpur, the capital city of the Federated Malay states, to assist in setting up a plant to make postage stamps for the government there.

A factory has been manufacturing bank-note paper ever since 1700 in Hampshire, England, and the only other place in the United Kingdom licensed to make such paper is in Aberdeen, Scotland.

Mr. Dalgarno said the quality of bank-note paper is established by the number of times it can be folded and a company is obliged to guarantee its paper for so many thousand folds according to the quality of paper required. The firm which Mr. Dalgarno represents also manufactures special cheque forms which are proof against the tampering of the forger. The paper which is used contains a secret chemical which sets up a reaction against any altering of figures or letters engraved on the cheque. With this special process and its chemical reaction any bank clerk can detect immediately if a cheque has been changed or forged.

Strange Story From Desert

Captive Legionaries Have Been Slaves Of Arabs For Years

The members of a colony of captive legionaries who, forgotten by the world, have for many years labored under Arab in the burning heat of the desert, are now beginning to find their way back to civilization. The first intimation of the existence of such a colony came when an ex-legionary named Lopez Postigo, who had been regarded as dead for many years, three months ago staggered into the Spanish garrison of Villa Cisneros, South-West Morocco, completely exhausted. The Spaniards told a strange tale of a band of legionaries of all nationalities held captive and held under conditions of virtual slavery for Arab taskmasters. A Jew named Abraham Cohen arrived in the French zone with a similar story. Thereafter a Spanish commission took up the matter and after negotiations aided by friendly Saharan sheikhs, the first party of ex-legionaries arrived at Cap Juby, near Villa Cisneros.

Lilac Came From Persia

Bush Has Three Distinct Species And Several Varieties

The lilac, which is one of the most fragrant and splendid of flowering shrubs originally came from Persia, but it has been a naturalized plant in the world's gardens for several centuries. There are two or three distinct species and several varieties, the colors varying from deep purple to pure white. Everybody is familiar with its fragrant blossoms, and it is often too powerful to make it welcome as a table-decoration within doors. The perfume is exhaled most strongly in the evening and in mild showery weather, and is due to the evaporation of essential oil. The lilac belongs to the woody family, and is closely allied to the common privet but it bears no fleshy fruit, and is valueless except for the splendor of its blossoms.

Claimed to be the largest in the world, a paper-making machine being made in Bury, England, will have a capacity of 1,900 tons of newspaper a week and will produce rolls 320 inches wide.

From the soy bean Chinese are making a substitute for cow's milk.

Marvels of the Human Eye
By F. M. CROWE, Optometrist-Optician, Calgary

NO. 9—ARE HUMAN EYES DEGENERATING?

This question is frequently asked by people who observe closely the steadily increasing number of "glass-wearers" as compared with a generation ago. The answer is—No. The eyes of the present generation are in no wise better or weaker than those of our ancestors unless it can be proved that the whole physique of the race has degenerated. As is the whole physical body so are the eyes. But much more is required of our eyes today than formerly. The unprecedent growth of manufacturing and commercial life, the strenuous struggle for existence, the ever increasing complexity of modern civilization, the knowledge of the world in all lines of human endeavor, knowledge that must be mastered to achieve success, put far greater strain on the eyes today than heretofore. Our schools are far more exacting and severe, the business and scientific world require closer ap-

pliation and more painstaking care than ever before. Electricity has turned night into day making it possible to do much work by artificial illumination that was formerly impossible and unnecessary. All this then requires the use of sharper vision and more hours per day of it than was necessary in former times and because of these exacting demands on the eyes, latent imperfections and errors of refraction causing eyestrain, are made manifest by symptoms of discomfort and distress, compelling us to seek improvement of vision and the comfort afforded by proper glasses.

Investigation has shown that primitive races of the men have the same irregularity of the eyes as the difference lies in the use to which they are put. So when Nature gives the warning signals—common sense would say—take heed.

(To Be Continued)

Protective Association

Toronto Landlords Have Problem With Destitute Tenants

Toronto landlords have formed a protective association. Landlords should not be shouldered with the double burden of providing both free rent and most of the city's taxes, the meeting agreed. It was attended by about 200 people and lasted more than three hours.

H. L. Rogers, former alderman, was the principal speaker. "It is unfair," he declared, "that the landlord should be faced with the ugly alternative of having either to turn a destitute man out on the street or to give him free rent. It is dishonest to make you pay for relief through taxes, and then to make you pay rent for the poor when others who own stocks and bonds have to pay no more than income taxes."

Engineer Of Famous

Train Receives Medal

New Year's Honor Conferred On Driver Of Royal Scot

On the platform of Euston station, from where many travellers have started a journey to Canada, J. H. Thomas, secretary of state for dominions, presented William Gilbertson, engineer of the famous Royal Scot, with the medal of the Order of the British Empire, conferred on the driver in the New Year's honors lists in recognition of the great tour of the train through Canada and the United States.

Where Jay-Walking Is Legal

Jay-walking is quite legal in Britain and no pedestrian need obey a traffic light. This was made plain by Major Oliver Stanley, minister of transport, in reply to a parliamentary question. The minister said it would not be practicable to impose the same legal obligations as on automobilists at street intersections guarded by traffic lights.

Daniel Stuart, London journalist and astute business man, bought the London Morning Post in 1784 from Tattersall, a horse dealer who owned it for £600. He sold it in 1803 for £2,500.

Good Business With Japan

Value Of Exports In 1933 Over Million Dollars Higher

An increase of more than \$1,000,000 in Canadian exports to Japan during the past year was one of the bright spots of Canada's foreign trade in 1933, says a trade review of the department of trade and commerce. Exports increased from \$11,995,887 in 1932 to \$13,001,704 in 1933. Exports of wheat flour to Japan increased in value from \$383,683 to \$609,367; wood pulp shipments increased in value from \$884,823 to \$1,444,238 and scrap iron from \$18,059 to \$389,853. On the other hand, however, marked decreases were shown in the value of exports of wheat and lumber.

Long Drawn Out Story

Walter Thompson took a book from the Atchison, Kansas, library 36 years ago, read half of the book, and then got it back to the library. A few days ago Mr. Thompson went back to the library, got the same book and finished reading it.

Twenty-three kinds of sharks are found in the waters off the coast of California.

HAMILTON, ONTARIO

PLAN FOR WHEAT CONTROL UNDER QUOTA SYSTEM

Ottawa.—An individual quota system for western farmers to control wheat production under the world agreement, was proposed in the house of commons by Ernest E. Perley, Cons., Qu'Appelle, Sask. Farmers would be licensed to sell grain so Canada's 200,000,000-bushel world export quota would not be exceeded and compulsory acreage reduction would not become necessary.

The Saskatchewan member made his proposal when continuing the address debate. It would involve co-operation from the provinces, in fact they would assume administrative control. The first step would be to add domestic wheat requirements to the export total and divide this by the number of acres to be seeded in the west this spring. This would give the estimated bushels per acre to be reduced, probably about 15 on an acreage of 21,000,000. The figure 15 forms the basis of the scheme.

Individual farmers then would be issued permits, based on sworn statements as to acreage.

If, for instance, a farmer seeded 100 acres and the expected production was 15 bushels, his permit would enable him to sell 1,500 bushels. If his crop exceeded that total, he could purchase the permit of another farmer whose crop did not come up to average. If, for instance, the western total crop exceeded the export total of 200,000,000 bushels and the average domestic requirement of 125,000,000 bushels, the surplus above the licensed sales would remain on the farms and would not depress exchange prices.

Sankey Cheats The Law

Hangs Himself in Cell In South Dakota Penitentiary

Sioux Falls, S.D.—Vernie Sankey, kidnapper and gangster, called "America's public enemy No. 1," cheated the law by committing suicide.

He hanged himself with two neckties in his cell at the South Dakota state penitentiary here, where he was held on federal charges of conspiracy to kidnap for \$60,000 ransom last February, Charles Boettcher, St. Denver broker.

The body of the one-time rail-roader of Melville, Sask., was found by a guard stationed in a corridor nearby. The notorious outlaw, after fashioning the crude noose with the ties, knotted it to a bar, then stepped off his cot.

E. Neesley, deputy United States marshal, one of the two guards assigned to Sankey's cell block, discovered the body. Although he had been in the corridor at the time, he was out of sight of Sankey.

Thus ended the law's plan to send Sankey to prison for life. His counsel, Ben B. Laska, Denver, had disclosed Sankey had planned to plead guilty to a charge of conspiracy to kidnap for ransom in the Boettcher case.

Claim To Be Investigated

Natural Resources Compensation To Be Discussed February 19

Edmonton.—Investigation by special commission of Alberta's claim to compensation for natural resources since the province was formed in 1905 is scheduled to get under way at Ottawa on February 19, according to information reaching here. Mr. Justice Tweedie of the Alberta supreme court will be Alberta's representative on the commission.

Saskatchewan will be joined with Alberta in pressing for compensation.

Limit Cotton Marketing

Washington.—A long stride toward federal control of agriculture's output was taken through formal approval by Secretary of Agriculture Henry Wallace of the Bankhead bill to limit cotton marketed in the United States during the 1934-35 season to 9,000,000 bales.

Supreme Judge Retires

Ottawa.—Mr. Justice Robert Smith has bidden farewell to his brother judges of the supreme court of Canada. A native of Cornwall, Ont., his retirement follows the reaching of the superannuation age of 75 years.

W. N. U. 2033

Disorders In Paris

Inability To Balance Budget Factor In Internal Trouble

New York.—The serious disorders in Paris commanded undivided attention in Wall Street because of the importance of France in international finance and her position as leader of the "gold bloc" nations.

The consensus in banking quarters was that if the republic is forced to abandon the international gold standard it will be because of conditions centering chiefly around balancing of the budget, rather than a desire on the part of other nations to bring about such an eventuality by importing gold.

It was generally believed that if the country should declare any sort of ban against the export of gold, it would have an adverse effect in the major financial centres of the world only for the time being.

Bankers who have studied the situation in France for some time believe the inability of the several French governments which have been in power in the last few months to balance the budget is the one factor more than anything else contributing to the internal upheaval. Important also, they pointed out, is the inflated price structure in the country and the unfavorable trade balance.

House Of Lords Reform

Lord Salisbury Moves For Consideration Of Reform Bill

London.—Lord Salisbury moved in the house of lords that a "humble" address be presented to the king, "praying" his majesty to consent to consideration of a bill for reform of the house of lords.

Lord Salisbury took this step because he had been criticized when he first presented the bill last December 19 for usurping the prerogative of the king. He was told he should have sought permission of his majesty to introduce the measure.

The bill would limit membership in the upper house to 330, of whom 150 would be hereditary peers, 150 chosen from outside the hereditary peerage, royal peers, a reduced number of bishops and law peers. Lord Salisbury said his scheme would give the lords sufficient powers to prevent the country being hurried into vast changes without time to consider them.

Welcomed At Naval Base

Prince George Starts Long Tour Of South Africa

Simonstown, South Africa.—With the customary naval ceremonial Prince George, who is starting a long tour of South Africa, was welcomed to the Simonstown naval base, headquarters of the African station of the royal navy.

After a civic reception, the king's youngest son visited the training ship General Botha and then went aboard the cruiser Dorsetshire, flagship of Vice-Admiral E. R. G. Evans—"Evans of the Broke."

Tentative arrangements announced for the visit several months hence of Prince George, who will also visit New Zealand, provide for his arrival at Fremantle on Oct. 4. He will come direct to Melbourne to attend centenary celebrations of Victoria state. Later he will visit all the other states.

Banking Committee

Fifty Members Who Will Compose Body Announced In House

Ottawa.—Of particular significance in view of the important banking legislation which will be considered during the present session, the names of the 50 members who will compose the banking and commerce committee have been announced in the house of commons.

Members from Saskatchewan include W. A. Beynon (Cons., Moose Jaw); C. E. Bothwell (Lib., Swift Current); T. F. Donnelly (Lib., Willow Bunch); E. R. MacMillan (Cons., Saskatoon); E. E. Perley (Cons., Qu'Appelle), and John Vallance (Lib., South Battleford).

Business Shows Improvement

Montreal.—There has been a distinct improvement in business in general during the past few months and this has been immediately reflected in the output of electricity for industrial purposes, James S. Morris, president of the Montreal Light, Heat and Power Cons., told the annual meeting of shareholders.

Railway Amalgamation

This May Happen Unless Conditions Improve, Says Hon. Cahan

Ottawa.—Amalgamation of the Canadian Pacific Railway and the Canadian National Railway will be unavoidable unless there is considerable improvement in operations during the present year, Hon. C. H. Cahan, secretary of state, said in addressing the annual meeting of the Ottawa Women's Conservative Association and the Conservative Women's Forum.

The minister said he did not speak for the government in making this suggestion, but that it was his considered opinion there would be no alternative to fusion of the two great railroads unless conditions improved.

Elect Officers At Convention

Saskatchewan Man Heads Canadian Shorters Breeders' Association

Toronto.—The Canadian Shorters Breeders' Association in convention here, passed a resolution that all money paid in grants at various exhibitions must be paid over by the exhibitors on a proportionate basis to all winning animals and not on the prize list alone, as has been the practice.

The following officers were elected: President, N. M. Ross, Indian Head, Sask.; first vice-president, Duncan Marshall, Duncan, Ont.; second vice-president, William Walde, Stratford, Ont.; secretary-treasurer, G. E. Day, Guelph, Ont.

CATTLE EXPORT FROM CANADA TO BE GREATER

Calgary.—Jack Byers, manager of the Western Stock Growers' Association, has received notice from Hon. H. H. Stevens, minister of trade and commerce, that cattle shipments to the United Kingdom equaling those of 1932 would be permitted this year until June 30.

An announcement from Ottawa in December had stated shipments for the first three months of 1934 would be restricted to those in the same period of 1933.

In January, February and March of last year a total of 7,863 beef animals left Canadian ports for the United Kingdom. To date this year nearly 5,000 head have gone to the overseas market and had the December ruling been followed, cattle men here say, exportations would have shortly ceased.

According to the statement from Ottawa 20,000 head of cattle will be permitted to enter the United Kingdom in the first six months of this year. In the first six months of 1933, 22,000 head left Canada, 9,607 of these being from western Canada of which 4,796 were from Alberta.

Byers said the situation for the last half of this year is still obscure. Advice from the United Kingdom indicates the quota against Irish and Canadian cattle has not had the desired effect, for British farmers' returns for home-produced beasts have not been increased, he said.

ANOTHER POLITICAL PARTY FORMED IN ENGLAND

Our picture shows the leader of the newly-formed United British Party, Cecil Serocoll Skeels, an organization opposed to the Fascists, seated in his office in London. Note the large Union Jack and a portrait of King George. Mr. Skeels, who will be the party's candidate in the coming by-election at Cambridge, says the United British Party is a "National Loyalist movement" which has been formed to take immediate action against the menace of a socialist dictatorship and the dark powers of decay, apathy and obstruction.

MAYOR RINFRET

Of Montreal, who with the city executive, has decided to ask the Quebec Legislature to amend the city charter so that in 1936 and thereafter elections will take place the second Monday of November instead of in April as at present.

Recall Revolution

Rioting In Paris Brings Back Memories Of Fateful Days Of 1871

Paris.—As mobs continued rioting in Paris, despite steps towards formation of a cabinet of national union, oldiers recalled the fateful communal revolution of 1871 when Frenchmen fought against Frenchmen in Paris, virtually under the eyes of the new German conquerors.

The Franco-German war ended with the capitulation of Paris, Jan. 29, 1871, after a five-month siege and bombardment.

On March 3, two weeks after the Germans had formally occupied Paris for two days, the commons was proclaimed; in other words, Paris was declared independent of any government except that chosen of its own people, regardless of any outside or central power.

The revolutionaries took over affairs and then began the second siege of Paris, a siege by French troops while victorious German troops looked on. The communards massacred foremost citizens, destroyed many fine buildings. The punishment was ruthless; 20,000 men and women were slain in the streets before the government regained control.

Seriously Injured In Riot

Senator Menier Of Paris Once Well-Known In Canada

Paris.—Senator Gaston Menier, wealthy chocolate manufacturer, was beaten during the rioting in the Place de la Concorde. Knocked down and kicked, his condition was reported serious.

Senator Menier, seriously injured during the height of the Paris riots, used to be well-known in Canada where he formerly owned the large island of Anticosti, in the St. Lawrence river.

Probe U.S. Army Contracts

Washington.—United States army contracts, already laden with trouble for at least three persons the administration accuses of lobbying for them, will become the vehicle for another congressional inquiry.

Simon Issues Warning

If Disarmament Efforts Fail Britain Must Strengthen Army

London.—Clear notice that if present disarmament efforts fail and a state of rearmament follows, the United Kingdom will have to reconsider the present levels of her own army, was sounded in the house of commons by Sir John Simon, foreign secretary.

Sir John, speaking in debate on disarmament, stressed the revised British plan for disarmament was a realistic plan seeking a reasonable compromise. He declared it would be followed up by a visit of Anthony Eden, lord privy seal, to Paris, Rome and Berlin to make sure the British proposals were completely understood.

The British belief that Germany's claim to equality of rights must be recognized before any progress can be made with all-round limitation and reduction of armaments was also set forth by Sir John. There was little likelihood of any peace while a great nation was held in subjection, he added.

Riding The Rods

Youth Is Killed Under Wheels Of Train At Jasper

Jasper, Alta.—R.C.M.P. were investigating the death of Bill Ross, 16, Edmonton, who died under the wheels of a train in the Jasper yards after he had jumped from the tender of the engine.

With Alex. Hadden, Jasper, he was returning from Vancouver and was "riding the rods" between the tender and the first car. It is believed that he struck a slippery snow bank and slipped down to the rails. Hadden, when the train stopped at the station, returned to find the lifeless body.

INTEREST CUT IS URGED TO SPEED UP BUSINESS

Details Of Ransom Payment Are Not Revealed

Ottawa.—Drastic changes in the general financial policy of Canada were urged on the Bennett government by one of its supporters in the house of commons, James H. Stitt, Cons., Selkirk, Man. He suggested compulsory reduction of interest, conversion of government bonds at lower interest rates and the issuing of \$100,000,000 in cash to establish a reconstruction purchasing board.

Canada stood at the economic cross-roads, the Manitoba member said, urging the government to accept a motion proposed by George Coote, United Farmer member from Macleod. It proposed a large national building program financed by new currency, to escape interest charges. No decision was made on the Coote motion, the debate not being concluded.

"There is an issue facing the government to-day, the like of which has never faced any government in Canada," said Mr. Stitt. "To the extent to which the government faces that issue it will be either victorious or defeated and the welfare of the great mass of the Canadian people will be enhanced or the opportunity lost."

Uncontrolled inflation was not acceptable to him, the Manitoba member continued, but "I believe the kind of preaching of sound money we have had in this country is wholly unsound. It has been sweet sounding for the receivers of interest but it has meant ruin for the masses of Canadians."

If the government placed \$100,000,000 behind a reconstruction purchasing board, Canadian industry would receive \$1,000,000,000 in new orders, Mr. Stitt predicted. The board would act as a hopper, where farmers could place orders and receive goods, attaching liens on to their property without interest. The orders would go to Canadian manufacturers, financed by the \$100,000,000 fund.

Canadians were being placed, in scorn by "this straight-jacket of interest," Mr. Stitt said, advocating compulsory rate reductions. He proposed legislation cutting 33 1/2 per cent of interest rates payable in Canada under all forms of contract. In addition, Canada might approach United States owners of Canadian bonds through the international joint commission, seeking one-third reduction rates in that country. Overtures might be made to English owners of Canadian bonds.

ALBERTA WILL MAKE MOVE TO STABILIZE PRICES

Edmonton, Alta.—Extension of public utilities board powers to various products to stabilize prices and avoid unfair competition, was announced in the speech from the throne, read by Hon. W. L. Walsh, lieutenant-governor of Alberta, at the opening of the legislature.

Certain projected highways are to be undertaken as part of an unemployment relief program, it is hoped.

The speech contains the announcement of a broadening of the Debt Adjustment act, passed in 1933, to meet the needs of other classes of debtors, besides protecting resident farmers and home owners. In order to extend the operation of the act in this respect, certain amendments to the federal Bankruptcy act will be sought.

The proposal to extend the powers of the public utilities board will arouse much debate. Under powers given last year, the board conducted an investigation into milk prices. Some months ago there were suggestions the board should extend price fixing to bread.

Now the government proposes that the principle of last year's legislation be "extended" to other products and to the distribution of other commodities in order that unfair competition may be avoided, that prices to producers may be stabilized, that fair wages may be paid and the price to the consumer maintained at a just and equitable level.

The legislature will be asked to justify the action of the government in extending to farmers the period for making payments under the Tax Consolidation act. The speech also forecasts certain changes in this act.

Bremer Is Freed

Details Of Ransom Payment Are Not Revealed

St. Paul.—Frederon, bought and paid for with a fortune in money, was Edward G. Bremer's again when he returned from 22 days in a kidnapper's lair, wounded and exhausted.

The full \$200,000 ransom, \$85,000 in \$5 bills and the rest in \$10 bills, was delivered by Walter Magee after a hitch in previous plans for payment had thwarted arrangements arousing fresh anxiety among the family that Bremer might never return.

Magee, wealthy contractor friend, who received the first ransom note January 17 when the banker was seized, was sworn to secrecy and would not reveal details of the ransom payment.

Manitoba Session Opens

Revision Of Statutes Is Forecast In Throne Speech

Winnipeg.—Revision and consolidation of provisions in regard to taxation powers of municipalities, consideration of legislation to give greater uniformity in laws relating to succession duties and revision of other statutes were forecast in the speech from the throne, delivered by Lieut-Governor J. D. McGregor, at the opening of the second session of the 19th Manitoba legislature.

The unemployment problem continued grave, with one out of every ten in Manitoba receiving relief, and providing necessary funds was becoming increasingly burdensome.

Highway Accidents

Philadelphia.—Take it from Captain W. J. Ruch, of the state highway patrol, there is no necessity for the modern automobile to be geared up to more than 50 miles an hour because "the average man is not physically or mentally capable of driving at greater speeds." That, says the troop commander, is the explanation for most accidents.

Amendment To Marking Act

Ottawa.—Designed to prevent deceptions in the marking of articles manufactured from precious metals, while at the same time stimulating such manufacture among the goldsmiths and silversmiths of Canada, a bill amending the Precious Metals Marking act, passing through its committee stage in the house of commons, now stands for third reading.

The Carpet-Bagger VS The Local Printer

Many business men, when considering the cost of any particular job of printing, look only at the small sum they may be able to save at the time on any order. They fail to ask themselves what the carpet-bagger leaves with them throughout the year in the way of business as compared with the local publisher and members of his staff. He also seems to forget that if he and his fellow business men would get more of their printing requirements done in their home town the publisher might be able to employ additional help, which would still further swell the amount of money to be spent in the home town.

Always remember! A dollar spent with a firm in a distant town is gone forever so far as its service to the community is concerned. A dollar spent with other firms in the home town stays there and performs many good services, in its own community. Get your printing requirements from

W. J. BARTLETT, PUBLISHER

Blairmore, Alta., Thurs., Feb. 15, 1934

Property owners, who have resided in Blairmore for upwards of twenty-five years and paid taxes, promptly during all that time, were refused the privilege of voting at Monday's elections, while many others with not a cent invested in the district voted, and without question.

Premier Bennett and Premier Brownlee should see to it that on the occasion of the next federal or provincial elections all stores are closed, all industries suspended and that education be curtailed. It's really not right that children should be tolerating school discipline at a time when office seekers need assistance.

There certainly would have been something wrong with the head of any individual holding the office of mayor of the Town of Blairmore during the year 1933 who would have undertaken a programme much different to that carried out by his worship Mayor Knight. Such general conditions never before had to be confronted by those in charge of municipal affairs here. Where we have criticized the administration of the past year, it has been, as we figured, in the interest of the ratepayers at large and not any small faction of them. No doubt, his council realizes this fact.

In connection with the method adopted recently by the town council of Blairmore in the issuance of financial statements and auditor's reports for the Town and School District, the Department of Municipal Affairs advise that "if the abstract and report is published in pamphlet form, it should CERTAINLY NOT be left at the Post Office for any one to accept a copy at will." We know of some homes in Blairmore that have had up to seven copies, all received through the postoffice wicket. We also know of ratepayers living in Blairmore and other parts of Alberta and Canada, who have not received the statement.

Varicose or Swollen
Veins--Ulcers

You poor sufferers from bad legs! What misery you have endured! What crippling discomfort!

But here at last is help for you! No operations nor injections. No enforced rest nor time off from work. A simple home treatment with Emerald Oil heals your sores like magic, reduces swelling, ends pain, and makes your legs as good as new—while you go about your daily routine as usual.

Follow the easy directions—you are sure to be helped or money back at Blairmore Pharmacy and druggists everywhere.

District News
From Our Own Correspondents

CORBIN HAPPENINGS

The Corbin Collieries Football Association met in the B. & R. hall on Sunday evening, February the 11th, for election of officers for the coming season, with the retiring president in the chair. Honorary officers of the association are: A. J. Corbin and E. L. Warburton, honorary presidents, with F. Reger, W. Almond, J. Taylor and S. Knight, vice-presidents; F. Coates, acting president; H. Martin, vice-president; A. Grieve, secretary-treasurer; G. Herd, J. Oakley, J. Sanderson, H. Jorgensen, executive; Robert Herd, senior, league referee; George Taylor, manager and trainer; Robert Lilly, captain; F. Coates and F. Thomas, auditors. A vote of thanks was passed to the retiring officers, and to Bob Lilly, who again captains the team. Corbin won first place in the Crows' Nest Pass series and the Crahan cup series last season.

First Aid classes commenced on Sunday evening in the school, with a splendid attendance.

Mrs. J. N. Barnes was a bridge hostess on Thursday afternoon last. Mrs. W. Almond won the first prize, with Mrs. H. Ferryman taking the consolation. Among the invited guests were Mrs. J. Taylor, Mrs. W. Almond, Mrs. W. R. Skyes, Mrs. F. Winters, Mrs. C. Petrie, Mrs. R. Elliot, Mrs. H. Jorgensen, Mrs. D. Waddington, Mrs. A. D. Williams, Mrs. H. Ferryman, Mrs. Thomas Collins, Mrs. A. Grieve, Mrs. H. Osborn, Mrs. W. Goss and Mrs. J. Dunn, of Calgary, who are guests of Mrs. Barnes.

A bridge party was held at the home of Mrs. Robert Elliot on Saturday evening last by the Corbin Ladies' Guild. A very delightful evening was enjoyed. Mrs. S. Knight won first prize; Mrs. C. Petrie second, and Mrs. J. Woodward, consolation. A dainty supper was served by members of the guild, following cards.

Jimmy Morgan was rushed to Fernie hospital on Thursday, where he underwent a successful operation for appendicitis. His father and mother motored to Fernie on Saturday to motored to Fernie on Saturday to Ross Workman was a Coal Creek visitor over the week end.

Miss Anna Barattelli left on Saturday for Spokane, where she will be the guest of Miss Irene Contreau for a few weeks. Miss Contreau and her brother George were Corbin visitors during the Christmas holidays.

Thomas Payne, who has been a patient in the Corbin hospital during the past two weeks, is visiting his parents in Fernie.

Mr. and Mrs. Knightlighter, who have been holidaying in Vancouver, Victoria and the western States for the past few months, returned to Corbin last week. Alex. Teck, who had been relieving Mr. Knightlighter during his absence, returned to Vancouver on Saturday.

Miss Annie Press is a Corbin visitor.

Mrs. George McGruther spent a few days in Fernie last week.

Mr. Linville was a Corbin visitor over the week end.

Mrs. A. D. Williams had as her guest over the week end her brother, W. Coote, of Edmonton. Mr. Coote was enroute to Pentiction, B.C.

E. L. Warburton returned Friday from a business trip to Spokane.

The hockey club are sponsoring the masquerade ball to be held in the B. & R. hall on March the 16th. Four shifts had been turned back from No. 6 mine on account of fire on Tuesday.

COWLEY HAPPENINGS

Feb. 7.—The Murphy young folks were at home to a number of friends on Friday night, when the entertainment took the form of a card party and dance. At cards, the prizes were won as follows: ladies' first

son and Miss Clare Bundy; gentlemen and consolation, Miss Marion Morris and consolation, James McKay and Jack Cowin.

The ladies' bridge club was entertained by Mrs. Peterson at her home on Monday night last, prizes being won by Mrs. Clara Cleland, Miss Nellie McWilliams and Mrs. Lily Bradshaw, respectively.

Word has been received that Mrs. E. M. Bowerman died recently at her home near Krumm, California. Before moving to California, several years ago, Mrs. Bowerman, with her husband and two sons were residents in this district for a number of years, where they engaged in mixed farming. She was predeceased several years by her son Clifford. Another son, Glen, is at present farming south of town.

Mrs. Ed. Cowin has gone to Calgary, where she will spend a few weeks under the care of a physician.

Feb. 14.—Mrs. Bundy staged a Valentine party for the young girls at her home on Monday night. The prize at contested games was won by Miss Josephine Portage.

A meeting of the town council was held on Monday night, when Joe Wilson was elected on the board to fill the vacancy left by James Leigh.

A successful dance was staged in the I.O.O.F. hall by the boys' hockey club on Friday night, with a large attendance.

The first baseball game of the season was played on local grounds on Sunday afternoon, between the home team and the River boys, the former going to defeat in a 10-8 score. The weather was ideal, and a large crowd of fans were on hand to witness the game.

The Ladies' Aid of the United Church was entertained by Mrs. C. J. Bundy at her home on Thursday afternoon.

At a recent three day conference between Peter Verigin and his Cowley colony, a disagreement on policy caused Mr. Verigin and other officers of the Christian Community, Alberta Division, to resign their offices and allow the people to elect their own. John Kozmetsoff was elected president, John Bojly and John Hoobanoff, first and second vice-presidents, and John Vishoff secretary-treasurer. Mr. Verigin will continue as titular head of the Alberta Community.

Charlie Poulsen had a narrow escape from drowning on Monday afternoon in the North Fork river, where he with Mr. Crayford were taking out ice. His team broke through in a spot only large enough to fit, where ice had been cut, and Mr. Poulsen went with them, but his efforts to get out were unavailing owing to thickness of ice and swift current, and only the timely arrival of his son saved him. The team was lost, there being no power or tackle handy to assist them, one horse being drawn under the ice in nine feet of water almost immediately; and though the other horse was extricated after being in the water three hours, it was found to be dead. Mr. Poulsen considers his escape miraculous, because of the plunging horses in such a narrow space.

HILLCREST HAPPENINGS

H. Instone returned from Calgary this week, after attending the annual convention of the Alberta School Trustees' Association.

Mrs. J. Mackie returned from Fernie on Friday.

Mr. and Mrs. Montegani are rejoicing over the birth of a son on Sunday last.

Mrs. P. Salt returned from Calgary on Sunday.
Rinaldo D'Amico and Jake Andreashuk were Lethbridge visitors this week.

Mr. and Mrs. Norman Bamforth, of Saskatchewan, formerly of Hill-

crest, are rejoicing over the advent of a son.

Mr. and Mrs. Leonard Sherritt, of Manitoba, are rejoicing over the birth of a son. Mrs. Sherritt was formerly Miss Dora Mansell, of Hillcrest.

Mrs. T. O. Davies was a Calgary visitor this week.

Dorothy Calderwood has returned home from a visit to Calgary.
Mrs. Aiken returned home to Fernie over the week end.

A very successful whist drive and dance was held Monday night in the Catholic hall, under auspices of the Catholic society. Whist honors were won by: Mrs. Seaman and Mrs. Houghton, ladies' first and second; Mrs. Semanick and Mrs. Turner, gentlemen's first and second.

Miss Bessie Clark, of Fernie, is visiting at the home of Mr. and Mrs. J. Mackie here.

Helen Seaman celebrated her sixtieth birthday by a masquerade party in the Catholic hall on Saturday evening. The prize winners for fancy costumes were Pauline Hestay and Tony Lesion.

A christening was held of Marjory Olive Williams, infant daughter of Mr. and Mrs. W. Williams.

G. G. Iwasick and R. Delini held a discussion in the Union hall on Sunday before a large audience, at which each gave his platform as a candidate for school trustee.

Jack and William Graham are visiting at the home of Mr. and Mrs. Joe Brown.

The election for school trustees was held on Tuesday and resulted in G. Miller and Lillian Rose being elected for two years, and R. Gardiner for one year. Votes cast were as follows: G. Miller 190, L. Rose 138, R. Gardiner 124, R. Delini 122.

G. Iwasick 118, J. McInnes 105, F. Balkwill 72, C. Carlson 66, R. Smith 68, R. Silcocks 30.

BELLEVUE HAPPENINGS

John Shevels met with a slight accident at the Bellevue mine on Thursday last, suffering bruises on his leg. After being attended to by the doctor, he was taken to his home, where he is resting easy.

Angus Dubois was a visitor in town, the guest of his sister, Mrs. L. Dambols.

The Valentine tea, held by the Ladies' Aid of the United Church on Saturday, was well patronized, and the ladies realized a nice sum from their efforts.

The B. Bellevue football boys are starting on the new year's work with a whist drive and dance to be held

BLAIRMORE UNITED CHURCH
Rev. Albert E. Larke, Minister

"Serve the Church that the Church May Serve You."

Services Sunday, February 18th, the minister in charge.

11 a.m.—SENIOR SCHOOL.
2 p.m.—JUNIOR SCHOOL.
7.30 p.m.—PUBLIC WORSHIP.

ST. LUKE'S CHURCH NOTES
Rev. A. S. Partington, B.A., Rector

Services Sunday, February 18th—Sunday school in the hall at 10 a.m. Evening service at 7.30 o'clock. Bible classes are being held in the hall every Wednesday at 7.30 o'clock.

in the I.O.O.F. hall some time in the near future.

Rev. Mr. Larke, of Blairmore, conducted the service in the United church here last Sunday in the absence of Rev. Wood.

The Bellevue Ramblers trimmed the Michel Pirates here on Monday evening, the final score being 40-33. This is the first time the Pirates have tasted defeat this year.

The ice harvest is in full swing here. Distributors are cutting in a stock from Connelly lake.

Bob Carney, of the Cowley district, is visiting his parents here.

W. R. Wilson, of Fernie, who recently purchased the Blue Flame mine near Princeton, has engaged Peter Lancaster, well-known official at Coal Creek, as mine overman.

Col. Hugh Clark remarks: "Some clergymen who are dead opposed to lotteries are willing enough to solemnize marriages, and we are not blaming them for that. It would be very inconsistent and ungrateful on our part," he says, "to find fault with a lottery from which we drew a capital prize."

Following the visit here last week of a number of prominent officials of the C.P.R., including Mr. Cotterell, we understand the company has decided to replace the roundhouse destroyed by fire at Frank with a more modern building of greater capacity and brick construction. Work of building will start immediately.

THE LARGEST RELIEF GIVING OF ITS KIND IN CANADA

CORRESPONDENCE

Hillcrest, Feb. 12, 1934.
Mr. Editor:

In the last issue of the "Enterprise" we were fortunate to have two versions of the recent school board meeting at Hillcrest. With your kind assistance I would like to submit a third "report," written in collaboration with our learned friend Alfred, Lord Tennyson. We decided to call it "The Charge of the Bright Brigade."

Half an hour, half an hour
Half an hour, half an hour
All in the Union Hall
Bored stiff, but wondered.
"Extinguish all your pipes
And cigarettes!" she said
To all the men there
Seemed like six hundred.
Fast atop the pipe brigade
Was there a man dismayed?
All those ratepayers knew
Someone had blundered.
Their not to be provoked
They just sat down and smoked
Into their mouths they poked
"Rolled" or "tailor-made."
Fags quite a hundred.

Rosco to right of her,
Gregory to left of her,
Joseph in front of her,
Whispered or thundered.
Wonders came like shot and shell
Bravely she stood and well
Into discussion great
Packing her L17 Rebaté—
Challenged three holders.
Flashed all her molar bars
Flashed as they let out air
Nagging the chairman there
Charging the school board while
All the folk wondered.
Plunged in tobacco-smoke
Rules, regulations broke
Douglas and Gardiner
Reel'd from the verbal-stroke
Shattered and sundered
Down like nine-pins they went
Rammed, wrecked and founded.

Critics to right of her,
Critics to left of her,
Critics behind her,
Spotters and fire-brooders.
Stormed at with shot from the 'chair'
Sticking like chew-gum there,
Standing serene and fair,
Came thro' the stress and strain
Fit for the 'press' again
Kiboshed the bunch of 'em,
Half of six hundred.

When can that mem'ry fade?
Of the wild charge she made!
All of us wondered—
Who was the tradesman sly
Who let his tax go by?
Asks, asks, six hundred!
Existing the power of the press,
Trying to seek redress.
Hillcrest an awful mess—
Blairmore round the corner.

She was last Friday found,
Promising "square deal all round",
Squaring the circle she,
Here, where speech is free,
What's uttered in Dan must be
Heard in Beersheba!
Telling the world that mugs
Like me, the country plugs,
Are surely all gone bugs
Noble old timer!

Take Yeast this pleasant way

If you believe in the healthful benefits of taking yeast, enough is contained in properly brewed Lager Beer. A pleasant and most nourishing way of taking yeast is in the liquid form of beer.

Alberta Lager Beers are brewed from the choicest cereals, tested yeast and selected hops --- a food and beverage combined.

OCCASIONAL WIFE

EDNA ROBB WEBSTER

Author of "Joretta," "Upstic Girl" Etc.

SYNOPSIS

Camilla Hoyt and Peter Anson, young and in love, marry secretly, deciding to live their own lives apart until Peter is able to provide for her. Peter is a young, struggling sculptor trying to win a competition for a scholarship abroad and Camilla is the adopted daughter of a wealthy family. She is not to inherit money when she comes of age and so is studying commercial art in the hope of landing an agency job. Others in the story are Avia Werth, another wealthy girl who is trying to get Peter, Sylvia Todd, Peter's model, and Gus Watson, his former roommate with whom he has quarrelled. At a party at an exclusive club Peter entertains Camilla's guests with impersonations. When the rest of the members of the party go to a cabaret to continue the gaiety, Peter and Camilla slip off to the beach by themselves and fall asleep on the sand. When they awake it is early morning and Avia and another boy are standing near them. This makes it necessary for Camilla to announce before the party that she and Peter are married. Avia is stunned and Camilla's mother likewise. Camilla decides that she must leave the home of her adopted parents immediately and go to live with Rose, her sister, who is a file clerk in a business house. They decide to take an apartment. Bowman and Weeks, an advertising agency, where Camilla has submitted some of her work, send for her and tell her they have a new account which requires unusual treatment of juvenile art. To Camilla's surprise she learns that the account is that of her foster father's company, which has decided on an extensive campaign to better the lagging business. After a conference with Mr. Bowman, Camilla decides to attempt the work. With ideas running riot in her head she goes home and spends the night sketching. In the morning, armed with her samples she sets out for the agency.

(Now Go On With The Story)

CHAPTER XXXX

It was a question which girl had received the sudden announcement of Peter's marriage with more disappointment and amazement, Avia or Sylvia. To Avia, however, it was merely another article in the path toward her ambition. To Sylvia, it presaged a certain finality for the two possibilities she had visioned, and for which she had been playing a double hand. As she exclaimed to

Too Much "Party" Last Night

Too Much Food.
Late Hours.
Smoky Atmosphere

YET—This Morning No "Acid Headache"—No Upset Stomach

Scientists say this is the QUICKEST, SUREST and EASIEST way to combat FEELING THE EFFECTS of over-indulgence—the most powerful acid neutralizer known to science. Just do this:

TAKE 2 tablets of Phillips' Milk of Magnesia in a glass of water BEFORE you go to bed.

TAKE 2 more tablets with the juice of a WHOLE ORANGE. That's all! Tomorrow you'll feel great!

Or take the equivalent amount of Phillips' Milk of Magnesia tablets. Each tablet is equal to a teaspoonful of the liquid.

Get genuine Phillips' Milk of Magnesia in a half-glass of water, or the new, marvelously convenient tablets. Be sure it's PHILLIPS'—the kind doctors endorse.

NOW IN TABLET OR LIQUID FORM
MADE IN CANADA

W. N. U. 2033

her astonished image when she read the announcement in the society column of this morning paper. "Well for crying at the moon! Who woulda thought they could fool everyone like that? Uh, uh, I guess that lays me out with flowers, all right, either way you look at it. I'll bet the high and mighty Avia Werth feels like a pucker up green apple, herself!"

The scurrying of the telephone bell interrupted her monologue. "Uh! the green apple herself, I'll bet."

"Yeah, hello," she drawled, and nodded her head with confirmation toward her silent audience of one, in the mirror.

"You've seen the latest news?" inquired Avia.

"I just read it, and as if you read my mind, the phone rings. I guessed it was you right away."

"Clever of you, I'm sure. But you haven't been so clever with Mr. Anson as you expected to be."

"Well, and isn't this good enough proof of the reason why? A new bride—what would you expect of me with such competition as that? I guess it surprised even you, didn't it? Not much chance for either of us, there."

"Either of us?" surprised.

"Well, you know what I mean. No chance for me to vamp him away from the Hoyt girl so you could take him over in sympathy," and she added to herself, "Fine chance you'd have at him if I had got that far!"

"I don't know why not!"

"You don't mean you're not ready to give him up, yet?"

"Why should I? Just because a man is married doesn't mean that he's chained to a life sentence, does it? In fact, this particular situation makes it easier to break up. But I'll take the affair into my own hands."

"But, say," Sylvia objected, "I gotta finish my work for him, even if he's married. I wouldn't be so mean as to cheat a fellow like that when he's doing nothing to me. Besides, I have some pride in the ethics of my profession, and my reputation. Models don't desert an employer in the middle of a piece of work."

"Suit yourself about that," Avia agreed indifferently, "but you needn't worry about quitting me in the middle of a piece of work. I won't need your services longer, and if you see a new tenant in Annex Hall soon, don't recognize me."

"Okay with me, Miss Werth. Rent two studios in the Annex Hall, for all I care."

"By the way, you will be wise if you drop your efforts to attract Mr. Anson."

"Say, I'm only too glad not to be under obligation to think up new ways for throwing out that iceberg," she retorted, but her blue eyes twinkled with the thought, "Being under obligation no more, let's let it out. But I guess if he is still ripe cherries for you, he is for me, too, your highness!"

But when Sylvia went to Peter's studio on the following day to pose, she experienced a new and kinder interest in the man and his work toward her ambition. To Sylvia, it presaged a certain finality for the two possibilities she had visioned, and for which she had been playing a double hand. As she exclaimed to

"Well, I guess I've given you no cause for complaint," he laughed easily.

"I'll say you haven't," she admired. "But say, I'd like to see the girl that stirred you up enough to lead you to the marriage license bureau and then keep it a secret."

"You may, any time you wish. I'll have Camilla run in some day and meet you. She would like to, I'm sure."

"Camilla—awful name. Is she as beautiful as her name sounds?"

"Ever so much more beautiful!" he declared proudly.

Sylvia reflected upon that with haste. "More beautiful than I am?"

"I wouldn't say that—no. But your types are so different, I couldn't compare you. She is about your size, but has dark eyes and black hair."

"Then I was wasting my time, anyway?"

"I might have known a blond gentleman like you would prefer a brunette. Well, good luck to you two, and that means we had better get to work."

"Thanks, yes, it does," Peter replied. "I have to get this thing ready to eat the mold in another week, or I won't be ready for the exhibit, after all."

Several days later, when Sylvia came again to Peter's studio, she observed that the hall was strewn with crates and boxes.

"Be gone moving in across the hall," she asked him.

"Looks like it, doesn't it?"

"Well, it'll be nice to have near

YOUNG MOTHERS

Don't experiment with children's colds... Treat them as your own mother did—externally. No dosing! Just rub throat and chest with...

VICKS VapoRUB

PROVED BY 2 GENERATIONS

neighbors. You're sort of alone up at this end of the hall."

"That's why I took this room. That suite across the hall is twice as large as this and twice as much rent, and I don't think it was likely to be occupied very soon."

"Know who it is?"

"Haven't the slightest idea. Nor do I care. I am going to be so busy for the next month that I can't even say hello to anyone."

"Oh, yeah?" thought Sylvia. "Well, they might say more than hello to you," but she said no more to Peter. When Camilla telephoned Mr. Bowman on the morning after her first conference with his executives, and announced that she had samples ready to submit to him, he exclaimed with dismay and disappointment,

"But, Miss Hoyt, surely you haven't—what I mean is, we want you to take your time, even though we are anxious to have your suggestions as soon as possible."

"That was what I understood," she agreed patiently, "and they are ready now, so profound."

"Very well. We shall be glad to see them whenever you can come in." But his voice indicated that he expected to be keenly disappointed because no one could produce a worthwhile suggestion and the evidence within less than twenty-four hours.

Camilla, however, arranged the precious ink and color drawings in the order she wished to display them and drove downtown confidently. The two hours of sleep had refreshed her and her inspiration of the previous day still made her heart light and her thoughts hopeful.

Of course, she conceded the possibility that the work was not as good as she believed it to be, but she was no less eager for the verdict of her judges.

She even detected a less cordial attitude in Mr. Bowman's greeting; she thought. Or was it only her imagination? He appeared already to feel the disappointment which he anticipated in her hasty work.

After all, he thought, like every young hopeful, the prospect had stimulated her imagination and she had leaped into the first idea that came to her, with visions of sudden fame and wealth. That was what everyone was looking for these days—nothing less—elusive to success and wealth. Ladders to success were obsolete, along with one-shot shots and celluloid collars.

Mr. Bowman had called a second conference with less optimism, and Camilla found herself once more seated at his right, with six men surrounding the polished walnut table. Her fingers trembled a little—with fatigue or apprehension—as she opened the portfolio and laid the drawing before them.

"Perhaps I had better explain the idea briefly before you look at these," she suggested modestly.

"Very well, Miss Hoyt."

(To Be Continued)

Are You WEARY?

Do you find it hard to do things some days? Does your body and brain feel overworked? Incomplete elimination of body wastes is probably the reason. It is more likely the reason even though you are as regular as can be in your daily habits, because regularity is no guarantee of completeness. Follow these simple health rules. Eat moderately, sleep sufficiently, get lots of fresh air and exercise, and wash your face and neck with a cleansing soap. Use Andrew's Liver Salt. Andrew's will purify and invigorate your whole system. Get Andrew's Liver Salt. Andrew's will purify and invigorate your whole system. Get Andrew's Liver Salt. Acquiring Knowledge

Newspaper Should Be Read Like Book, States Chatham Judge

Judge McFadden of Chatham, Ontario, always has something worth while when he makes a public address, says the Border Cities Star.

Speaking to a group in Chatham, His Honor discussed the important subject of reading, saying, among other things that newspapers should be read like a book, with due concentration, in order to absorb valuable information. If people would read their newspapers properly, Judge McFadden observed, they would be well posted, well educated in fact.

We were particularly impressed with this paragraph from our report of His Honor's address: "We read for two main purposes—to acquire knowledge and for pleasure. It should be a pleasure to acquire knowledge, but this means work is never a pleasure."

As Judge McFadden says, it should be a pleasure to acquire knowledge, yet all so many persons who have plenty of natural ability, never seem to get this point of view. His remarks provide valuable food for thought.

THE RHYMING OPTIMIST

By Aline Michaelis

DECISION

How good to see the way, to know the path
When I shall this hour set my feet;
How good to leave behind the doubt, the wrath,<
And all the dull insignia or defeat!

No wanderer groping long through underground
Black caves, down chambers echoing and cold,
Can, glimpsing daylight, thrill with joy so profound
A rapture when he sees the sun's warm gold.

Upon the meadows, hears the lark's clear call
As this day I, who have arrived at last,
At the sure boundary of a massive wall
Which shuts me out from all the barren past.

How good to know that I, who still have breath,
Have gained a barrier absolute as death!

Necessity Of Research

Specialists Working On Problems Should Get In Touch With The Agricultural Man

Speaking of the danger to agricultural research in that the specialist may become so fascinated with the intricacies of the problem that he forgets the end to which his researches are directed, Sir A. Daniel Hall, told the Canadian Society of Technical Agriculturists that those directing research should try to ensure that all the workers made contacts with the practical man. "His high specialization exists," he said, "it is inevitable; and we cannot get away from it, and we cannot do so even get an appreciation of many of the difficult problems that are before us unless we have such specialists, each at liberty to go on working in his own way, and pursuing his particular bent to the utmost."

But can we do something to make these people human? In order to do that, let us try to ensure that they have contacts with agriculture itself."

Nailless Horse Shoe

Robert A. Campbell, of Griffin, Sask., has taken it on himself to develop what the well-dressed horse will wear in the spring of 1934 and thereafter. He claims to have invented a "nailless" horse shoe, which has already interested United States capitalists. Whether the new shoe is bolted, laced, glued or screwed to the horse's hoof was not disclosed by the inventor.

Better For Business

Solicitor (to client who has been summoned for excessive speed): "But why do you want to admit you were doing fifty miles an hour when you know it was only thirty?"

Client: "Well, I told you I'm the agent for the car."

Small-sized refrigerator cars, for moving perishable goods in smaller quantities than standard cars, are now being used by railroads.

Wall street, the garden where melons sometimes grow into lemons.

BUY MADE-IN-CANADA GOODS

Not Many Eggs Imported

Canada Able To Produce Enough For Home Needs

Canada does not import many eggs, the domestic hen apparently being able to cater for her own folk. The few we get—3,764 dozen in December, which was considerably above the average of the past year—came mainly from Hong Kong, United States and Australia.

The total supply in 1933 was 24,753 dozen. That is, eggs in the shell, for we get frozen and dried eggs from China and the United States to some little extent—36,706 pounds in 1933, which was less than one-third of the 1932 requirement.

What do our heavy hearts prove but that other things are sweeter to us than His will, that we have not attained to the full mastery of our true freedom, the full perception of its power, that our sonship is not yet realized, and its blessedness not yet proved and known. "Our consent would turn all our trials into obedience. By consenting we make them our own, and offer them with ourselves again to Him.—H. E. Manning.

Nothing is intolerable that is necessary. Now God hath bound trouble upon thee with a design to try thee, and with purpose to reward and crown thee. These cords thou canst not break; and therefore lie thyself down gently and suffer the hand of God to do what He please.—Jeremy Taylor.

CHANGING THE RULES AFTER THE GAME HAS STARTED

The above cryptic remark by a local citizen on the government's method of handling motor licenses very aptly sums up the situation.

Every spring for the past three years, the government at Edmonton has pulled a fast one on the car owners in the province. Remember the wholesale fines last year, the day before the price was to drop unknown to the public.

This year, it is particularly bad, because it breeds contempt for the law and a man's word. Undoubtedly, many people will perjure themselves by swearing falsely on or after April 1st to obtain cheaper car licenses, and worse still, the honest man who pays full price after that date will have the finger of suspicion pointed at him. A rather peculiar side of the affair is that it is making farmers in the south-east part of the province buy licenses earlier and for greater terms than has been customary.

And of what avail will all the teaching of "honor among men" to our children be when such disreputable actions by the government are the daily topic of conversation in the majority of homes.

If the law is to be enforced, which is quite correct, let the people know what the law is the dark ages were supposed to have passed hundreds of years ago.—Brooks Bulletin.
